Portfolio www.lealcreativex.com

I am a versatile Web Developer with extensive experience in creating and developing applications, as well as configuring systems for new businesses. As the owner of my own company, I specialize in delivering comprehensive solutions, including ERP systems, product catalogs, e-commerce platforms, and marketing tools such as banners. My expertise extends to online integrations, utilizing APIs for seamless connections between platforms.

With a robust background in Google and Facebook Ads, I have honed my skills in online marketing and digital outreach, ensuring effective promotion for businesses. My technical expertise includes solid knowledge of programming languages such as Java, Node.js, C#, C++, and Lua, where I hold senior-level proficiency. In addition, I have successfully developed mobile applications and have experience with mobile development frameworks.

My skill set also encompasses cloud services (AWS) and infrastructure tools like Docker, along with a strong command of relational and non-relational databases. I am continuously expanding my technical base, studying Software Engineering to stay updated with the latest trends in technology.

I am driven by a passion for growth in the technology field, striving to innovate and create extraordinary solutions that make a meaningful impact

Experience

Oliveira Supermarkets

Weighing System Configuration

- At Oliveira Supermarkets in Brazil, I was responsible for configuring and maintaining a networked weighing system, ensuring operational efficiency and accuracy across store processes.

Pratic Greens

Label Creation

- At Pratic Greens, a food production company in Brazil, I managed the creation and printing of product labels. This role involved streamlining the production and packaging processes, contributing to optimized workflows.

Unika Packaging

Graphic Machine Programming

- At Unika Packaging, a graphic production company in Brazil, I programmed a specialized machine to cut aluminum seals into precise measurements, using AutoCAD-based designs. This required significant technical expertise and a detail-oriented approach.
- Additionally, I relocated to João Pessoa, Brazil, where I worked at their facility for two years, further expanding my expertise in this area.

Top Connections

E-commerce Development and ERP Operation

- Currently, I provide services for Top Connections, a retail business in Brazil. I was responsible for developing their website and e-commerce platform, as well as photographing and cataloging their entire product range.
- I have also gained extensive knowledge in the Omie ERP system, which I operate independently. This includes managing invoices, products, and inventory, further enhancing my expertise in data management and business processes.

Technical Skills

Programming Languages:

Java, C# (Object-Oriented), C, C++, COBOL

Web Development:

HTML5, CSS, JavaScript, Node.js, React, React Native

Databases:

MongoDB, Relational Databases

Development Tools:

Git, Linux, Android OS

Specialized Skills:

SQL, ERP System (Omie)

Personal Skills

Leadership

Self-Motivation

Adaptability

Interpersonal Skills

Communication

Team Collaboration
